

I am writing to save my favorite radio station, K-Love. I am a music lover and without K-love I will be lost. The music lifts and encourages me and gets me through each and every day. It is the only station I listen to, and the same goes for many people I know. There are no commercials and no bad language. It is so family friendly. I love this station so much that I support them financially. PLEASE do not allow an LPFM to take priority over K-Love.
